

Step 1: Base Unit

- 40P Electrophotographic Laser Printer**
(Includes PS/PCL/Native XPS Interpreter for Windows® Vista, 128 MB Standard Memory, Gigabit Ethernet, Standard USB 2.0 (supports local printing), USB 1.1 Host Port, 70-sheet Face Up Output Tray, High Capacity 19K Imaging Cartridge, One-year On-site Warranty).
- 40PX Electrophotographic Laser Printer**
(Includes PS/PCL/Native XPS Interpreter for Windows® Vista, 256 MB Standard Memory (consist of two 128 MB DIMMs), Gigabit Ethernet, Standard USB 2.0 (supports local printing), USB 1.1 Host Port, Automatic Duplex Unit, 70-sheet Face Up Output Tray, High Capacity 19K Imaging Cartridge, 3-year On-site Warranty).

Step 2: Paper Handling Option

- Lower Feeder Units** *(550 sheets each. Add up to 2)*
- Automatic Duplex Unit** *(Standard on 40PX)*

Step 3: Output Option

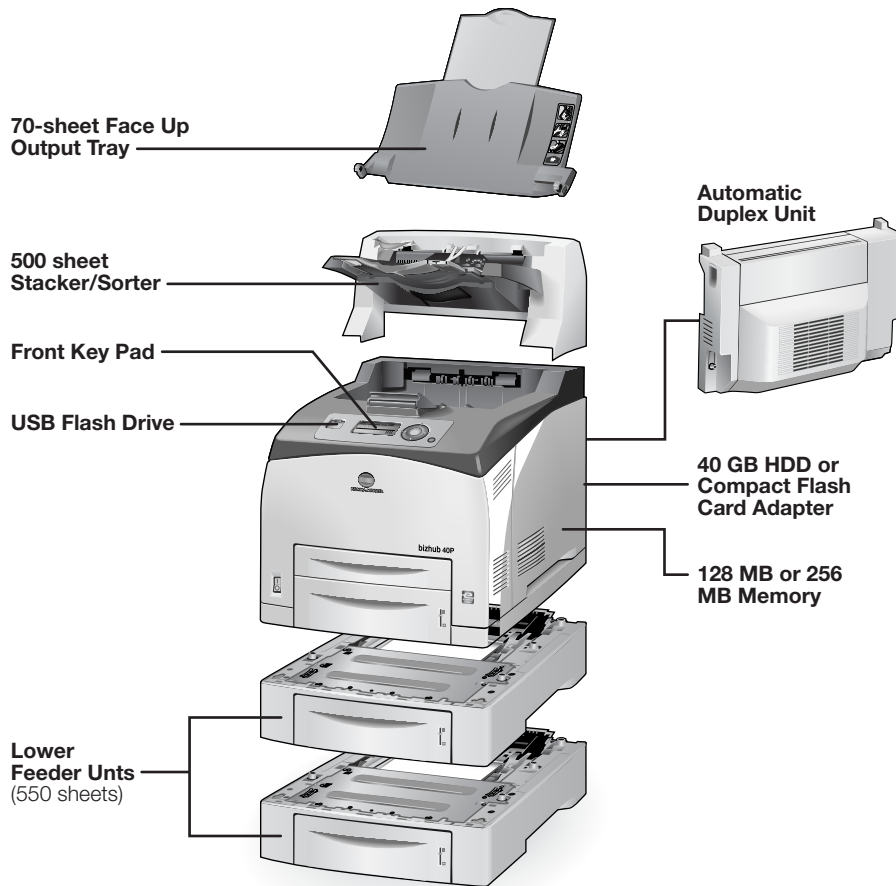

- 500 Sheet Stacker/Sorter**

Step 4: Image Controller

- Standard Emperon Print System**
(PCL/PS/XPS)

Step 5: Storage and Memory Options

- 40 GB HDD**
- Compact Flash Card Adapter***
(Supports 256 MB, 512 MB, 1 GB, 2 GB and 4 GB)
- 128 MB RAM or 256 MB RAM****

* CompactFlash cards available from 3rd party vendors.

** The bizhub printer comes standard with 128 MB RAM (256 MB standard on the 40PX, which consists of two 128 MB DIMMs), that can be expanded to 384 MB RAM. Optional memory of 128 MB or 256 MB is available as an upgrade for the bizhub 40P. When upgrading the bizhub 40PX, the 256 MB option is required (one of the 128 MB DIMMs needs to be removed from the 40PX to accommodate the 256 MB DIMM).

bizhub 40P/40PX

Accessory Options for bizhub 40P/40PX Electrophotographic Laser Printer

KONICA MINOLTA

3/2008
